Re: HAL W.

3 Feb 68

...something interesting & useful. The three versions of the DPD radio ... of course, much in disagreement. In fact, so much so that it's easy to make ... comparing one channel of one version with a different channel in another ... not even realising. Well, Sawyer A & B save you the trouble of getting ..., on account of about 50% of the chan 2 Sawyer A pages being mixed in with ...wyer B pages! And it is done so neatly & with so much care that the page ..., the hours & minutes, mesh in beautifully. But you could spend a hundred ... comparing the various versions of the logs without discovering this.

... set your Sawyers in order, mark your pages conspicuously like this at the bottom:

```
- Write "cont p 399"
- Write "Begins on p 399"
- Delete "Sawyer No A" & enter "No B"
                do
                do
                do
                do
- Delete "Sawyer No B" & enter "No A"
                do
```

... for easy reading, mark bottoms of pages in this order:

```
- Channel 2
-       do
        do
-       do
-       do
- Channel 1
-       do
-       do
        do
        do
        do
        ...nel 2
        do
```

... that one out taxed me so hard I had to open another can of beer.
